**DAUGUERREOTYPE, AMBROTYPE,
And PHOTOGRAPHIC Rooms.**

McDONALD returns his sincere thanks to the
citizens of Fort Wayne and surrounding coun-
ties for their liberal patronage heretofore bestowed upon him; and would respectfully invite their attention to a new style of pictures beautifully gotten up on Glass, and also on paper, which he is prepared to execute equal to any ever seen in the market before. These Pictures are peculiarly life-like and true to nature. The Ambrotype being the latest improvement, far exceeds the Daguerreotypes with the convenience of distinction.

Allen County Speaks in a voice of Thunder!

1300 Democratic Majority!

Our election on Tuesday last resulted in a most glorious democratic triumph, and places Allen County at the head of the democratic column. Allen is the banner county, and Fort Wayne the banner city of the state. We have given the state ticket a handsome majority ranging from 1299 to 1421! our candidate for Congress 1281, and elected our Representative and entire county ticket by equally large majorities.

The election was warmly contested, but every thing went off quietly, and though our opponents were detected in peddling spurious and counterfeit tickets, not the slightest disturbance took place—a fact highly creditable to the forbearance and love of law and order of the democratic majority. Our majority in this city was near 1,800, showing a large democratic gain, and the country townships did equally well, as they without exception exhibit the steady progress of democratic principles, and did better than could have been looked for. The vote in the county was larger by nearly 1200 than ever before given, exhibiting gratifying evidence of the increase of the population of our county.

The green ruffle here was for the office of Sheriff. His means were resorted to in defeat Mr. Fleming, our excellent nominee. The most infamously reports were circulated against him; spurious tickets, purporting to be democratic, but with the name of his competitor inserted, were distributed by hundreds, and in short every means adopted to defeat him. But all was in vain. He is triumphantly elected by 834 majority, which though less than the balance of our ticket, is under all the circumstances, a gratifying proof of his popularity and the adherence of our party to our nominations. We have achieved a mighty triumph, and feel too well satisfied to indulge in triumphs or crow over our prostrate adversaries.

Tenth Congressional District. In this district, Hon. S. Brenton, republican, has been re-elected. This may seem strange to our citizens after the glorious democratic majority they gave; but in the northern counties the storm of fanaticism and folly seems to have swept with resistless fury. Allen County alone has stood firm to her faith. Whitley has done tolerably well. DeKalb has not met our expectations; and Noble has entirely disappointed us. In the rest of the counties we'd expect nothing but what they have done worse than we anticipated. The report of majorities are as follows. The Allen Co majority is official, the others are only reports, and may perhaps not be entirely correct:

Lovely, Brenton.

Allen	1281
Whiteley	80

High-handed Outrage! Legal Voters Disfranchised!

The fusion election board of Lake Township, we are informed, refused to allow any naturalized citizens to vote on Tuesday last, unless they produced their naturalization papers. One man who has been a citizen of the township for 10 years of twenty years was thus disfranchised.

In pursuing this course these petty tyrants not only acted without section of law, but in direct violation of it. The election laws of this state do not require the production of naturalization papers to prove the right to vote, any more than they require native born citizens to procure a registry of birth to establish their qualification.

All classes of citizens are placed on the same grounds, and if a vote is challenged all that is necessary is to take the oath prescribed by the law. The constitution and the election law are both clear on this point.

Article 2, section 2, of the State Constitution provides that "every white male of foreign birth, of the age of twenty-one years and upwards, who shall have resided in the United States one year, shall have resided in this State during the six months preceding such election, and shall have declared his intention to become a citizen of the United States, conformably to the laws of the United States on the subject of naturalization, shall be entitled to vote in the township or precinct where he may reside."

The general election law, Revised Statutes, page 14, section 20, provides that, when a vote is challenged, the board shall explain to the voter the qualifications of an elector; and section 21 defines the oath to be taken as follows:

Sec. 21. If such person insists that he is entitled to vote, and the challenge be not withdrawn, such board shall administer to him the following oath: You do swear (or affirm) that you are over the age of twenty-one years, according to the best of your information and belief; that you have resided in this State, during the six months immediately preceding this election; that you are at this time a resident of this township or precinct, (as the case may be); that you are generally known by the name in which you now ask to vote; and that you have not voted at any other poll at this election; and in case of person of foreign birth, that part of the oath relative to citizenship shall be dispensed with, and the following substituted:—That you have resided in the United States one year, and have declared your intention to become a citizen of the United States in conformity with the law.

Sec. 23. If the person challenged takes such oath, he shall be admitted to vote, and it shall not be lawful thereafter, for said board to examine other witnesses touching his qualifications; but if he refuse to take such oath, they may swear and examine other witnesses.

From it is clear that an election board has no right to demand the production of naturalization papers, and that the Lake Township board have acted in violation of law, and arbitrarily and unjustly disfranchised voters who had as much right to vote as they had themselves.

This is a high-handed outrage, and ought to be visited with the severest penalty of the law. If aatty township board are to be thus allowed to nullify our Constitution and laws, and deprive freemen of their dearest rights, what becomes of our much boasted liberties?

Steps ought to be taken at once to redress this grievous wrong, and teach the perpetrators that even fusionists and township officers are not above the law. Such a course would have a beneficial effect on many small men dressed in a little brief authority, and teach them to respect the rights of those who elect them.

In Kosciusko Co., we are informed, the same course was adopted, and hundreds of railroad laborers were denied the right of suffrage.

It is by such means that the fusionists seek to sustain their failing cause. But their efforts are futile—their doom is sealed. The people may learn one good lesson from this; and that is, that it is unsafe to trust power in the hands of such a party, or elect them to any office how-ever small!

INDIANA REDEEMED!

Democratic Gain of 20,000!!

Indiana has nobly redeemed herself and elects the whole democratic State ticket by at least 600 majority, being a gain of nearly 21,000 since 1854. Sixty democrats are certainly elected, ensuring us two democratic U. S. Senators. For Congress, we have elected six members certain, and probably more. In the present Congress we have only two.

The 1st. District elects Lockhart, dem., by 3,000 to 4,000 majority. In the 2d, English is reelected by nearly 3,000. In the third, Hughes is elected by 1,700. In the fourth, Fooley beats Cumback nearly 2,000.

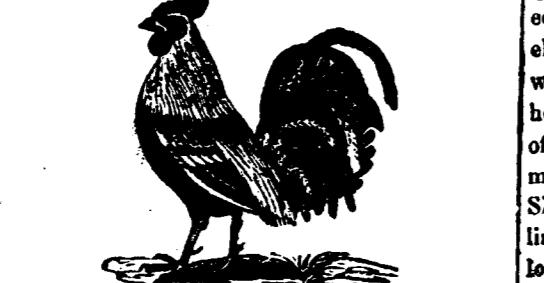

In the 8th, Wilson, rep., is elected by 218. In the 9th, Colfax is probably reelected; in the 10th, Brenton is reelected by about 500. The 11th is close, with a prospect that Garver, dem., is elected.

Indiana is safe for Buchanan by 12,000 to 15,000 majority.

We regret to learn that R. J. Ryan is defeated in Marion Co., for the Legislature, by about 80 votes.

ADAM COUNTY, does well—better than usual, giving a democratic majority of 426, and electing the entire democratic county ticket.

PENNSYLVANIA ERECT!

The Union Safe—the Keystone in its place!

We have carried Pennsylvania by 5000 over the combined Fremont and Fillmore fusion. Sixteen democrats elected to Congress—a gain of 10; and a large majority in the Legislature. Glory to Old Pennsylvania—Buchanan's election is certain.

Ohio—the fusionists have carried Ohio by probably 20,000 majority. We have however gained six Congressmen, and probably eight—Cincinnati elects Groesbeck and Pendleton; in the 6th district Coeckerill, dem.; 10th Miller, dem.; 12th Cox, dem.; Hall, Medill, Lawrence, and Burns, democratic, are probably elected—Edgerton is defeated by a small majority. Lew Campbell is reported elected by 17 majority, having imported voters from the neighboring district but his seat will be contested.

If a Fillmore ticket should run in Ohio, we have some hope Buchanan will carry the state. Fusion Hatred of Democrats.—We have heard of a little circumstance which shows the hatred and intolerance engendered in some small minds by the heat of the political excitement of the present campaign. A rampant fusionist purchased a pair of boots of Mr. J. Feilinger some three or four weeks ago. The day after the election, while smarting under the terrible defeat his party had experienced in this county, he took the boots and left them in Feilinger's store with the remark that he would not wear boots made by a d—d Dutch loo-foo. Mr. F. sent the boots back with a message that the boots smell so strong of diggerin and know nothing that he could not allow them to contaminate the atmosphere of his shop, and the fusionists must keep them. Comment is unac-cessary.

Through the instrumentality of the most outrageous frauds and murderous violence, the Know-Nothings have perpetuated their power in the city for another term. Never was our city disgraced by such continued scenes of ruffian violence as marked the course of our opponents throughout the day. The sworn brotherhood aided by thousands who still continue to call themselves old Whigs, carried out the resolutions of their councils. In every ward where they had the power, they beat the adopted citizens and many native-born, who wished to vote the Democratic ticket, openly and daringly asserting

NORMAN'S admirable series of volumes, "Matters of War Life," "Merchant Vessel," and the new volume, "Wading and Rowing," will be ready for publication in two or three weeks, when they will be circulated. They are the faithful limnings of nine years experience, of a common sailor, a native "Buckeye," recognized as inferior to no writer of the present day, in like delineations of adventure by sea.

Very interesting and very instructive. * * *

* * * Has adventure enough to please, yet truth enough to dissipate the charm of a sailor's life.

"He was no enemy to the South, and if he represented his constituents again in Congress, he would convince them that he was not their enemy, if he had not done so already. He would assist in asserting the ancient doctrines of the South and North, and in doing so he counted on the aid of the true conservative friends of Southern interests."

After this we may look for a total change in the tone of the Fremont press and speakers. We noticed the fact that at the late Fremont meeting in this city, the whole laborers of the party seemed to be to throw off the negro load they were carrying, while they did not fail to keep up a appearance, by roundly berating the Southerners, and singling the "truth of History" as to make out their case, to suit their programme of proceedings.

We may well warn the people against the dangerous claim of Congressional power over the subject of slavery in the Territories, for you have no guarantee in so doing that you will not be sold out, at any turn of the corner, and the "biting hill" swallowed and you made, through your representatives in Congress responsible for slavery in the Territories. The Democratic doctrine is the only true and safe doctrine—but let it be with those whose business it is, and if any sin or crime is committed, it is for those to answer for it who commit it. But if you claim the power to do it yourselves, through your representatives in Congress, you have to run the risk of attempting to vote slavery into both Kansas and Nebraska, as shown in *Douglas's Bill*, and thus keep the question open in Congress, to be bartered and traded on by the reckless, dishonest and ambitious.

The money states, now interested in the nomination and election of Fremont as shown by numerous publications in regard to the immense "Parisian swindle—the last and unaccounted-for California State interest, to say nothing of converting the whole Government, and to secure fifth and refund what is lost and absent in *Fremont Checks and Drafts*.

Let the people be warned in time—let not your votes be forced from you by falsehood and false pretences, but save yourselves, and all is saved dear to you as freedom, your country and your home.—*Ohio Statesman*.

The Maine Election.

The recent election, although ostensibly a political one, involved also the great question of temperance.

It is now ascertained that a sufficient majority of both Houses of the newly-elected Legislature is secured to carry through any measures the temperance men in these bodies may see good to adopt. We have also the best assurance that Hamlin, the Governor elect, will give his sanction to any bill our friends may choose to pass. In view of these facts, we look forward to the certain passage of a new prohibitory law in Maine during the coming session of the Legislature. Hurrah for Maine—*People's Organ and Advocate*.

What do our anti-Maine Law friends in this country, among the Germans who have been following over the victory of negro propriety in Maine, say to the above, which is taken from a "temperance organ." While they are likely to accomplish nothing for the freedom of the slave, they can and will rive upon the necks of the most degraded social vassals.—*Cin. Eng.*

From the Columbus Journal
Dreadful Accident Yesterday—Fourteen Persons Killed.

The Delaware County Fair was held yesterday, and was the scene of a most deplorable accident. It appears that an old engine was obtained to work the machinery on exhibition at the Fair, which exploded, scattering death and destruction in its path. We learn that eleven persons were instantly killed, and three so badly wounded that they died shortly afterward. Some thirty persons were wounded by the explosion—but we have not learned full particulars.

The accident occurred about three o'clock in the afternoon. The scene immediately after the explosion is represented as shocking in the extreme. Bodies scalded and torn to pieces, some of them so badly mangled that they could not be identified.

How tragic it is that "in the midst of life we are in death."

Religious Element.

The Cincinnati Gazette is trying to show that the "religious sentiment" of the country is the great element in the Black Republican organization. "Such men as Theodore Parker, Wendell Phillips, Garrison, and other less noted infidels" are the resource, will smile when they are told that they are at the head of a party made up of the religious phalanx." The trial of the Abolition Black Republicans organization has always been controlled by "infidels," instead of "Christians"—men who, like Birringame, desire a new Constitution, a new Bible, and a new God."

Doctrines of the "Republians" Made Clear.—While the ablest brain of the senate, providing ample means for protecting the rights of slaves and the ballot box of Kansas, was passed, the Republicans objected to it because the proslavery men had the majority as they stated for the first time, and that the "friends of freedom" would not be able to reach Kansas before the election in October! Is it now apparent (what a convenient memory they have!) according to a statement of the National Kansas committee, that they count 31,000 free state men to 5,000 pro-slavery men? Are people really insane that they do not see and denounce these impositions?

New York, October 8.

Scenes of a Slave.—The bark *Panhandle* was seized this afternoon of Sandy Hook, on suspicion of being a slave ship, by Captain Fawcett, of the revenue cutter *Wistaria*. The *Wistaria* was at the Washington near the *Panhandle*, the latter having just recovered and contain full evidence of the illegality of the bark's voyage. She was brought to the city and anchored off the Navy Yard.

Nebraska.—The census of Nebraska has just been taken, and shows a population of ten thousand and seven hundred and sixteen, and four thousand and two, and one-fourth held in a single year, and the number of voters is nearly three times greater than in 1855. There was not a single dollar subscribed for Sharp's rifle to establish this territory and fill it with free citizens.

"An Eminent Cattle Dealer!"—We clip the following from the Providence Post:

"A noted abolition orator, whose stock in trade is of the flimsy, high-flown order, asked very solemnly of his audience, 'and who is John C. Fremont?' A Democrat who was listening followed, rose and replied, 'An eminent cattle dealer!' which 'brought down the house,' and the speaker too."

New Jersey promises at least seven thousand majority for Buchanan. Board of Vermont, General Duff Green, Governor Price and others addressed a large meeting in Hudson city on Wednesday, and the celebrated Dr. Merkle roused the spirits of the Germans to a high pitch. The absurdity of the Fremont boosters are laughable.

Wm. Arrison, convicted at Cincinnati of "manslaughter" upon an indictment charging him with murder in the first degree, by killing Isaac Allison by means of an "infernal machine" or "torpedo," was on Monday sentenced to the penitentiary for ten years. The prisoner was first convicted of murder in the first degree, and sentenced to be hung, but obtained a new trial, which resulted in a verdict of manslaughter.
